🔗 Portfolio

Profile

Front-End Developer with 3+ years of practical experience building web applications, primarily using React and Next.js. With a background in Computer Science, I focus on creating clean, responsive UIs with TypeScript and Tailwind CSS. Currently, I am expanding my technical stack into backend development with PHP and Node.js to build complete full-stack solutions. My approach is centered on writing maintainable code and solving UI/UX challenges effectively.

Professional Experience

Personal and Educational Development | 2022-Present

Over the last three years, I have been actively building web applications, focusing on creating responsive and user-friendly interfaces with modern technologies.

- **Frontend Development:** Building and improving web applications using HTML, CSS, and JavaScript. Developed advanced projects using React.js, Next.js, and TypeScript.
- **UI/UX & Responsive Design:** Practicing mobile-first design and applying UI/UX principles to ensure a seamless user experience.
- **Version Control:** Using Git and GitHub for version control and maintaining a clean development workflow.
- **Current Backend Focus (Learning):** Actively expanding into server-side development with PHP (Composer) and Node.js/Express. Working with databases like MySQL, PostgreSQL, and MongoDB to transition into full-stack development.

Technical Skills

- HTML5 / CSS3 / Javascript (E6+)
- React.js / Next.js / TypeScript
- Bootstrap / TailwindCSS / SASS
- Git & GitHub
- AWS (Amplify Hosting), Cloudinary
- Node.js - Express.js / PHP (learning)
- MongoDB / MySQL / PostgreSQL (learning)
- UI/UX Design (Figma) (learning)

Skills

- Problem Solving
- Team Collaboration
- Attention to Details
